QUESTION: Grievance mechanisms
How can we improve?

Establish a grievance /complaints process (grievance mechanism) communicated to internal and external stakeholders that meets the following standards:

- It can be used to receive, resolve and remedy labor exploitation and modern slavery-related complaints; and,
- It is effective; i.e., it is accessible, predictable, fair, rights-based, transparent, confidential or anonymous, and it bans retaliation or reprisal. Consider whether parties know the mechanisms exists, can access it in their own language and can raise grievances anonymously.

Consider involving external stakeholders in its design and communication such as suppliers, workers and civil society organizations.

Ask your suppliers if they have a grievance mechanism and determine how you will work with them to receive regular reports and ensure workers in your value chain are able to raise grievances with you/them.
